CONFIRMATION

of compliance with the requirements of EN 45545-2

Connectors are specified as listed products in table 2 „requirements of listed products“ (EN45545-2:2020-10 chapter 4.4), at the EN 45545-2 valid since August 2013. Hereunder they are classified in clause EL10 as small electronic component.

Accordingly to this table 2, such small electronic component has to meet the R26-requirement. This requirements (R26) are defined in table 5 „material requirements“ (EN 45545-2:2020-10 chapter 4.8). The combustible materials of the product are listed in the table below, including the quantity as well as their fire protection characteristics.

No.: 1534630	Material	Combustible Mass [g]	UL94	Requirements
Insert	PA	2,13	V-0	R26 (HL3)
